16.2 Cybercube Business Group LTD reserves the right to change the jurisdiction of the Company and the Applicable Law of this Agreement at any time in its own discretion, as well as use any parent companies, subsidiaries and/or other affiliated companies for execution of this Agreement, Cybercube Services and other activities related to Cybercube Project.

16.3 **Binding Arbitration.** Except for any disputes, claims, suits, actions, causes of action, demands or proceedings (collectively, "Disputes") in which either Party seeks injunctive or other equitable relief for the alleged unlawful use of intellectual property, including, without limitation, copyrights, trademarks, trade names, logos, trade secrets or patents, You and Company (i) waive Your and Company's respective rights to have any and all Disputes arising from or related to this Agreement resolved in a court, and (ii) waive your and Company's respective rights to a jury trial. Instead, You and Company will arbitrate Disputes through binding arbitration (which is the referral of a Dispute to one or more persons charged with reviewing the Dispute and making a final and binding determination to resolve it instead of having the Dispute decided by a judge or jury in court).

16.4 **No Class Arbitrations, Class Actions or Representative Actions.** Any Dispute arising out of or related to this Agreement is personal to you and Company and will be resolved solely through individual arbitration and will not be brought as a class arbitration, class action or any other type of representative proceeding. There will be no class arbitration or arbitration in which individual attempts to resolve a Dispute as a representative of another individual or group of individuals. Further, a Dispute cannot be brought as a class or other type of representative action, whether within or outside of arbitration, or on behalf of any other individual or group of individuals.

16.5 **Notice; Informal Dispute Resolution.** Each Party will notify the other Party in writing of any Dispute within thirty (30) days of the date it arises. The Parties agree first to negotiate in good faith for a period of not less than sixty (60) days following the written notification by the other Party so that the Parties can attempt in good faith to resolve the Dispute informally. Notice to Company shall be sent by e-mail to Company at [token@cybercube.io]. Notice to you shall be sent by email to the then-current email address in your Account. Notice must include (i) your name, postal address, email address and telephone number, (ii) a description in reasonable detail of the nature or basis of the Dispute, and (iii) the specific relief that you are seeking. If you and Company cannot agree how to resolve the Dispute within thirty (60) days after the date notice is received by the other Party, then either you or Company may, as appropriate and in accordance with this Section, commence an arbitration proceeding.

16.6 Any arbitration will occur in London, United Kingdom. Arbitration will be conducted confidentially by a single arbitrator in accordance with the LCIA Arbitration Rules of the London Court of International Arbitration, which are hereby incorporated by reference. The LCIA Arbitration Rules of the London Court of International Arbitration are available on the LCIA website. By agreeing to be bound by these Terms, you either (i) acknowledge and agree that you have read and understand the LCIA Arbitration Rules, or (ii) waive your opportunity to read the LCIA Arbitration Rules and any claim that the LCIA Arbitration Rules are unfair or should not apply for any reason.

17. MISCELLANEOUS

17.1 By accepting this Agreement, you are deemed to have read the Whitepaper as well as other Ecosystem Terms and Policies if introduced and are aware of all risks and rules provided thereto.

17.2 This Agreement will be governed by and construed and enforced in accordance with the Applicable Law, without regard to conflict of law rules that would cause the application of the laws of any other jurisdiction.

17.3 If any term, clause or provision of this Agreement is held unlawful, void or unenforceable, then that term, clause or provision will be severable from this Agreement and will not affect the validity or enforceability of any remaining part of that term, clause or provision, or any other term, clause or provision of these Terms.

17.4 We do not permit individuals under the age of 18 to register with the Website and use Cybercube Services. If we become aware that a child under the age of 18 has provided us with personal information, we will delete such information from our files immediately and block its access to the Website and the Ecosystem.

17.5 We and our affiliates will not be liable for any delay or failure to perform any obligation under this Agreement where the delay or failure results from any cause beyond our reasonable control, including acts of God, labor disputes or other industrial disturbances, electrical, telecommunications, hardware, software or other utility failures, earthquake, storms or other elements of nature, blockages, embargoes, riots, acts or orders of government, acts of terrorism, or war, changes in blockchain technology (broadly construed), changes in the Ethereum or any other blockchain protocols or any other force outside of our control.

17.8 We and you are independent contractors, and neither party, nor any of their respective affiliates, is an agent of the other for any purpose or has the authority to bind the other. Both parties reserve the right (a) to develop or have developed for it products, services, concepts, systems, or techniques that are similar to or compete with the products, services, concepts, systems, or techniques developed or contemplated by the other party and (b) to assist third party developers or systems integrators who may offer products or services which compete with the other party's products or services.

17.8 This Agreement does not create any third-party beneficiary rights in any individual or entity.

17.9 You will not assign this Agreement, or delegate or sublicense any of your rights under this Agreement, without our prior written consent. Any assignment or transfer contrary to these terms will be void. Subject to the foregoing, this Agreement will be binding upon, and inure to the benefit of the parties and their respective successors and assignees.

17.10 The failure by us to enforce any provision of this Agreement will not constitute a present or future waiver of such provision nor limit our right to enforce such provision at a later time. All waivers by us must be unequivocal and in writing to be effective. This Agreement is the entire agreement between you and us regarding the subject matter of this Agreement. This Agreement supersedes all prior or contemporaneous representations, understandings, agreements, or communications between you and us, whether written or verbal, regarding the subject matter of this

Agreement. We will not be bound by, and specifically object to, any term, condition or other provision which is different from or in addition to the provisions of this Agreement (whether or not it would materially alter this Agreement) and which is submitted by you in any order, receipt, acceptance, confirmation, correspondence or other document.

EXHIBIT A

Important Note: *As noted elsewhere in the Token Sale Agreement, the Tokens are not being structured or sold as securities or any other form of investment product. Accordingly, none of the information presented in this **Exhibit A** is intended to form the basis for any investment decision, and no specific recommendations are intended. Company expressly disclaims any and all responsibility for any direct or consequential loss or damage of any kind whatsoever arising directly or indirectly from: (i) reliance on any information contained in this **Exhibit A**, (ii) any error, omission or inaccuracy in any such information or (iii) any action resulting from such information.*

By purchasing, holding and using CYBE Tokens, you expressly acknowledge and assume the following risks:

1. Risk of Losing Access to Tokens Due to Loss of Private Key(s), Custodial Error or Purchaser Error

A private key, or a combination of private keys, is necessary to control and dispose of Tokens stored in your digital wallet or vault. Accordingly, loss of requisite private key(s) associated with your digital wallet or vault storing Tokens will result in loss of such Tokens. Moreover, any third party that gains access to such private key(s), including by gaining access to login credentials of a digital wallet or vault service you use, may be able to misappropriate your Tokens. Any errors or malfunctions caused by or otherwise related to the digital wallet or vault you choose to receive and store Tokens, including your own failure to properly maintain or use such digital wallet or vault, may also result in the loss of your Tokens. Additionally, your failure to follow precisely the procedures for buying and receiving Tokens, including, for instance, if you provide the wrong address for receiving Tokens, may result in the loss of your Tokens.

2. Risks Associated with the Ethereum Protocol

Because Tokens and the Ecosystem are based on the Ethereum protocol, any malfunction, breakdown or abandonment of the Ethereum protocol may have a material adverse effect on the Ecosystem or Tokens. Moreover, advances in cryptography, or technical advances such as the development of quantum computing, could present risks to Tokens and the Ecosystem, including the utility of Tokens for obtaining Services, by rendering ineffective the cryptographic consensus mechanism that underpins the Ethereum protocol.

3. Risk of Mining Attacks

As with other decentralized cryptographic tokens based on the Ethereum protocol, Tokens are susceptible to attacks by miners in the course of validating Tokens transactions on the Ethereum blockchain, including, but not limited to, double-spend attacks, majority mining power attacks, and selfish-mining attacks. Any successful attacks present a risk to the Ecosystem and Tokens, including, but not limited to, accurate execution and recording of transactions involving Tokens.

4. Risk of Hacking and Security Weaknesses

Hackers or other malicious groups or organizations may attempt to interfere with the Ecosystem or Tokens in a variety of ways, including, but not limited to, malware attacks, denial of service attacks, consensus-based attacks, Sybil attacks, smurfing and spoofing. Furthermore, because the Ecosystem is based on open-source software, there is a risk that a third party or a member of the Company team may intentionally or unintentionally introduce weaknesses into the core infrastructure of the Ecosystem, which could negatively affect the Ecosystem and Tokens, including Tokens' utility for using the Ecosystem.

5. Risks Associated with Markets for Tokens

Tokens are intended to be used solely on the Ecosystem, and Company will not support or otherwise facilitate any secondary trading or external valuation of Tokens. This restricts the contemplated avenues for using Tokens to access or use Cybercube Services, and could therefore create illiquidity risk with respect to Tokens you hold. Even if secondary trading of Tokens is facilitated by third party exchanges, such exchanges may be relatively new and subject to little or no regulatory oversight, making them more susceptible to market-related risks. Furthermore, to the extent that third-parties do ascribe an external exchange value to Tokens (e.g., as denominated in a digital or fiat currency), such value may be extremely volatile and diminish to zero.

6. Risk of Uninsured Losses

Unlike bank accounts or accounts at some other financial institutions, Tokens are uninsured unless you specifically obtain private insurance to insure them. Thus, in the event of loss or loss of utility value, there is no public insurer or private insurance arranged by us, to offer recourse to you.

7. Risks Associated with Uncertain Regulations and Enforcement Actions

The regulatory status of Tokens and distributed ledger technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether regulatory agencies may apply existing regulation with respect to such technology and its applications. It is likewise difficult to predict how or whether legislatures or regulatory agencies may implement changes to law and regulation affecting distributed ledger technology and its applications, including the Ecosystem and Tokens. Regulatory actions could negatively impact the Ecosystem and Tokens in various ways. Company may cease operations in a jurisdiction in the event that regulatory actions, or changes to law or regulation, make it illegal to operate in such jurisdiction, or commercially undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction.

8. Risks Arising from Taxation

The tax characterization of Tokens is uncertain. You must seek your own tax advice in connection with purchasing Tokens, which may result in adverse tax consequences to you, including withholding taxes, income taxes and tax reporting requirements.

9. Risk of Alternative Platforms

It is possible that alternative platforms could be established that utilize the same open source code and protocol underlying the Ecosystem. The Ecosystem may compete with these alternative platforms, which could negatively impact the Ecosystem and Tokens, including Tokens' utility for obtaining Services.

10. Risk of Weaknesses or Exploitable Breakthroughs in the Field of Cryptography

Advances in cryptography, or technical advances such as the development of quantum computers, could present risks to cryptocurrencies and the Ethereum platform and Tokens, which could result in the theft or loss of tokens.

11. Risk of Insufficient Interest in the Ecosystem or Distributed Applications

It is possible that the Ecosystem will not be used by a large number of individuals, companies and other entities or that there will be limited public interest in the creation and development of distributed technologies (such as the Ecosystem) more generally. Such a lack of use or interest could negatively impact the development of the Ecosystem and the potential utility of Tokens.

12. Risks Associated with the Development and Maintenance of the Ecosystem

The Ecosystem is still under development and may undergo significant changes over time. Although we intend for Tokens and the Ecosystem to follow the specifications set forth in Whitepaper, and will take commercially reasonable steps toward those ends, we may have to make changes to the specifications of Tokens or the Ecosystem for any number of legitimate reasons. This could create the risk that Tokens or the Ecosystem, as further developed and maintained, may not meet your expectations at the time of purchasing Tokens. Furthermore, despite our good faith efforts to develop and maintain the Ecosystem, it is still possible that the Ecosystem will experience malfunctions or otherwise fail to be adequately developed or maintained, which may negatively impact the Ecosystem and the potential utility of Tokens.

13. Risk of an Unfavorable Fluctuation of Ether and Other Currency Value

The Company team intends to use the proceeds from selling Tokens to fund the maintenance and development of the Ecosystem and Cybercube Services. The proceeds of the sale of Tokens will be denominated in Ethereum, and may, at our discretion, be converted into other cryptographic and fiat currencies. If the value of Ether or other currencies fluctuates unfavorably during or after the Sale Period, the Company team may not be able to fund development, or may not be able to develop or maintain the Ecosystem in the manner that it intended.

14. Risk of Dissolution of the Company

It is possible that, due to any number of reasons, including, but not limited to, an unfavorable fluctuation in the value of Ether (or other cryptographic and fiat currencies), decrease in Tokens' utility, the failure of commercial relationships, or intellectual property ownership challenges, the Ecosystem may no longer be viable to operate and the Company may dissolve.

15. Risks Arising from Lack of Governance Rights

Because Tokens confer no governance rights of any kind with respect to the Ecosystem or Company, all decisions involving the Ecosystem or Company will be made by Company at its sole discretion, including, but not limited to, decisions to discontinue the Ecosystem, to sell more Tokens for use in the Ecosystem, or to sell or liquidate the Company. These decisions could adversely affect the Ecosystem and the utility of Tokens that you hold.

16. Unanticipated Risks

Cryptographic tokens such as Tokens are a new and untested technology. In addition to the risks included in this **Exhibit A**, there are other risks associated with your purchase, holding and use of Tokens, including those that the Company cannot anticipate. Such risks may further materialize as unanticipated variations or combinations of the risks discussed in this **Exhibit A**.
